Environmental & Technical Assurance

FORTE

Forte plywood is an innovative product which offers improved durability and resistance to wood decay agents

Plywood panel made exclusively of poplar veneers, modified with an innovative impregnation treatment that makes the entire panel exceptionally durable to the attack of wood decomposing agents and most of the factors responsible for the degradation of wood.

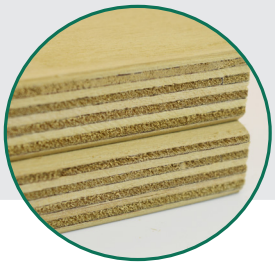

For application in a wide variety of sectors which demand high performance and improved durability characteristics.

SPECIFICATION DETAIL

Thickness Range	9mm - 30mm
Dimensions (mm)	2500 x 1200
Average Density	450 - 500 kg/m³ ± 10%
Product Classification	BS EN 636-3
Glue Bond	BS EN 314-2 Class 3
Formaldehyde Class	E1
Veneers	High quality face and core
Chain of Custody Status	PEFC 100% (FSC® available on request)
